John D. Trent in The Current. Art of Making English Cheese The famous British sirloin of beef is being gradually ousted by its American succulent competitor, and the art of making English cheese to perfection is gradually disappearing from the English grazing counties. Lord Tollemache, one of the most liberal and intelligent landlords of England, recently addressed a letter to his tenants, in which heremarks: "The qual ity of American cheese has greatly im oved. Consequently it is more ant than ever that you should spare no pains in making cheese of prime quality to enable you to compete successfully with the foreign producers. Pray, allow me to remind you that in this world it is almost impossible to arrive at perfection, but if any tenant on this estate wishes to receive further instruction in cheese making, he has only to apply to my agent, who will be found most willing to arrange for that instruction to be given, and to pay, for me, half the fee of £5, which any superior cheesemaker ought, in fairness, to receive for giving instruction in the art."-San Francisco Chronicle.

The Rattlesnakes of Pyramid Lake. One of the small, rocky islands of Pyramid lake, Nevada, is alive with rattle aside my sewing to enjoy the game the snakes. It is supposed that the progeni-tors of these snakes were wafted to the island on bunches of floating driftwood. There are thousands, if not millions—the people about the lake say millions—of the rattlers on the island, and their right to voice. I rushed out into the hall and ran tiles have their homes among the rocks. up the stairs as fast as possible, thinking and feed upon the eggs and young of to find my old boarder dead or dying. But waterfowl and dead fish that are cast no, I met him on the landing, crying like upon the island. Stories have been told castor with my boot " glide away and hide themselves in the crevices of the rocks, just as would sim-

Powderly collared that strike at Troy. N. Y. and 15,000 girls have resumed work.

The Minneapolis Tribune says that editions we may add, of the stale of One. And we have may also defined that strike at the united one the sound, but the sound, had resolved to do some good with his sur-found necessary for even the aim of the ventrilo uist to divert the aften tion of the audience from immed entirely

Of late years a large number of ventrile quists have conce to the front, each one b. predecessor, and their exhibitions consist ing generally of a dialogue between two or more puppets and the performer himself. Such performances are within the power of any person who has taient for immicry, reasonably good voice, and the courage to face an audience. Practice will do it all in a short time. Not so, however, with true ficient in this art without devoting to it ventrilo juisin, for no one can become a promuch study and years of practice. It is essential that the student should have an ear so well attuned as to readily distinguis also possess a votce of great liexitality should be largely developed. All this slow not imply that there should be any peculia construction of the vo at organs and an who assert that ventrals mists necessari had not fluttered since early manhood differ in this respect from other addividual flushed the cheek of the now gray whisk either do so for a purpose or thereby on

"That new house you see up there on the desterity.

Any person possessing a good voice ound lungs and a moderate amount o. mimetic talent may with perseveran to its study. The student should alway-copy after nature, either familiar human voices or cries of animals. Always tail during expiration instead of inspiration, three pets now, and but for my reminder of his former seithsh nature, he might have expand the chest and induce the lungs before taking in the ventriloquial voice. Seigo short sentences and control the air in the lungs so as to have sufficient to fimsh each one before taking another breath. Takwer for breathing purposes, and let to questions given in the natural voice be o sufficient length to allow time to fully ovecome the fatigue which necessarily follow this manner of speaking. The student is advised in all cases relating to distant sounds to let the ear be his guide as to ton pitch, butness, et , for he can not be gove erened correctly by any fixed rules in sucmatters. The practice of listening to varous sounds in the open air, and noting at tentively their pe unarities, will in a shor time enable the ear to determine with con-siderable accuracy all that is essential to the study of ventriio juism. A great variety of sounds may be produced with but slight changes of the tongue and hips and ther action upon the teetin A little practic will, however, do more in this respect that long explanations or rules. The professiona ventriloquist requires great confidence and self-possession, with a ready flow of sma-

talk to keep up the interest. It will probably appear strange to the ununitiated when they are innormed that the voice from above, the voice below an the voice at a distance and on a line from the performer are produced precisely in the same manner. The ventriloquist in either case simply directs the attention of hi hearers to the supposed source of the sound For such voices, the voice, shords are conloudness representing the distance. An further written explanations would be of a practical value in the study of ventral juism. Experience has demonstrated the the art can be successfully taught, though the belief has generally been to the contrary. - San Francisco Cail. A Recollection of Horace Greeny.

Judge Wilson, of Geneva, Ills., is bandsome gentleman, with gray hair and mustache, who wears an old-fashione stock, and has kindly, old fashioned ways Years ago Horace Greeley was his gues-one night while on a lecturing tour in the west. Judge Wilson says that the great journalist talked with modest pride about his work and his newspaper. "I frequently try in vain to get articles into The Trib-une," he said, during the conversation: "Mr. John Russell Young, my managing editor," he continued, "knows better than I what should be published, and he tre quently destroys editorials which I have written although I plead with him to spare them. Sometimes," said Mr. Gree ley, plaintively, "I feel that I am body treated, but I have to submit never ceased to wonder," said Judge Wilson, in telling the story, "at the fact that Mr. Greeley could not print what he liked in his own paper,"-Chicago News.

Education of Women in Siam. Col. David B. Sickels, formerly the representative of the United States in Siam, has lately received from Bangkok a per sonal letter, which says: "His majesty so well pleased with the results of the system of public education for males which was established a few years ago at your suggestion that he has decided to es tablish a school in this city for the instruction of the native women, and it is probapathy;" but do we not know what it means? It mer us "suffering with"-nothble that a prominent missionary lady will be placed at the head of the institution."
